Job Overview**Summary**

**DELAWARE AIR NATIONAL GUARD
FEDERAL TECHNICIAN VACANCY ANNOUNCEMENT THIS IS A MILITARY
POSITION
PERMANENT
DUAL STATUS, BARGAINING
166 Medical Group**

Position Description (PD) Number: D1720000

Open to applicants in Areas of Consideration: I, II, & III

The purpose of the position is to plan, schedule, execute, manage, and administer the installation-wide Industrial Hygiene/Bioenvironmental Engineering Program (IH/BEE), which includes occupational health/industrial hygiene, radiation safety, and environmental monitoring to maintain and promote the health and well-being of military and technician personnel.

DEFINITION OF AREA(S) OF CONSIDERATION:

AREA I = All presently employed Delaware Air National Guard permanent federal technicians.

AREA II = All currently active members of the Delaware Air National Guard.

AREA III = All other applicants eligible for membership in the Delaware Air National Guard.

EQUAL OPPORTUNITY EMPLOYER STATEMENT:

The Delaware National Guard is an Equal Opportunity Employer. All qualified applicants will receive consideration without regard to political, religious, or labor organization affiliation or non-affiliation, marital status, race, color, sex, national origin, age, non-disqualifying physical challenges (applicable only to competitive appointments) or any other factor not job related.

NATIONAL GUARD MEMBERSHIP IS REQUIRED:

This is an excepted position that requires membership in a compatible military assignment in the National Guard. The selectee will be required to wear the military uniform. Acceptance of an excepted position constitutes concurrence with these requirements as a condition of employment. Applicants who are not currently a member of the National Guard must be eligible for immediate membership and employment in the National Guard in the military grade listed in this announcement. **For enlistment/appointment information, call 1-800-TO-GO-ANG (Air).**

****Be advised that if selected for a military technician position where membership in a reserve component is a condition of employment and you are receiving a bonus, your bonus will be terminated and may or may not be subject to recoupment. ****

Duties

(A complete position description is on file in the HRO.)

- Researches industrial operations and develops, implements, and executes surveillance strategies, inspections and evaluations of operational facilities, and various activities to detect and eliminate health hazards. Designs appropriate methods and techniques of surveys. Performs no-notice, spot, and special inspections of operational facilities and worksites base wide when statistical analyses and conditions dictate need, when new equipment is to be installed, and/or when hazardous conditions exist. Documents findings using complex inter-relational data basing systems.
- Reviews and approves issues related to hazardous material including personal protective equipment (PPE) and disposal requirements. Researches technical orders (T.O) for possible substitutes (i.e., environmentally friendly products). Ensures the installation is in compliance with OSHA confined space standards. Evaluates the areas to determine hazards. Develops and writes guidance on local controls and procedures for personnel entry into confined spaces.
- Ensures the installation is in compliance with OSHA confined space standards. Evaluates the areas to determine hazards. Develops and writes guidance on local controls and procedures for personnel entry into confined spaces.
- Researches, formulates and implements workplace air sampling strategy, performs air sampling surveys, and evaluates results. Briefs installation leadership and management committees on survey results that have a potential positive/adverse impact, and provides technical advice on plans and correction.
- Conducts noise surveys before commencement of new operations or work processes, when notified that operations/processes have changes, or on a periodic basis.
- Directs the base Respiratory Protection Program (RPP) in accordance with AFI 48-137, Respiratory Protection Program based on air sampling results and professional judgment. Ensures respiratory protection device chosen will provide proper protection against hazard identified. Authorizes issue of respiratory protection for specific industrial processes and ensures respirator

users are quantitatively fit tested. Provides RP training to personnel during their annual fit testing of respirators.

- Performs other duties as assigned.

Travel Required

- Occasional Travel
- For training purposes
